# Trinity College

## Hartford, Connecticut

1823-1940

TRINITY COLLEGE is a small New England college of liberal arts, enrolling about 550 students. Its charter was granted in 1823, upon the petition of "sundry inhabitants of the State of Connecticut, of the denomination of Christians called the Protestant Episcopal Church," on the grounds that "great advantage would accrue to the State, as well as to the general interests of literature and science, by establishing within the State another collegiate institution" in addition to Yale. The charter still states that the ordinances of the College "shall not make the religious tenets of any person a condition of admission to any privilege in the said college, and that no President or Professor or other officer shall be made ineligible for or by reason of any religious tenet that he may profess, or be compelled by the by-laws or otherwise to subscribe to any religious tests whatsoever." The ties, therefore, between the Church and the College have been those of tradition, not of law or government. Until 1845 it was named Washington College.

Instruction was begun in September, 1824, to nine students. Two brownstone buildings were erected "about a mile from the city" "near a thick forest" on what came to be known as College Hill, the site now occupied by the State Capitol. One of these buildings was designed by S. F. B. Morse for the chapel, library, and public rooms of the College; its portico can still be seen on the College seal. The other was designed by Solomon Willard, architect of the Bunker Hill Monument, as a dormitory. The first presi-

dent was the Rt. Rev. Thomas Church Brownell, who since 1819 had been Bishop of Connecticut. His bronze statue as Bishop-Founder, modelled in Rome by Powers, today stands facing Northam Towers.

The Rev. Dr. John Williams, '35, was elected to the Presidency in 1848, when he was not yet thirty-one years of age, and he gave the College his service and his devotion as President, Vice-Chancellor, and Chancellor, until his death in 1899. Soon after his election a third building, also a dormitory, was built to the north of the other two. During the Civil War Trinity College sent seventy men—more than one-sixth of her sons of military age—into the Union Army.

When Hartford was made the sole capitol of the State, the city selected College Hill as the location for the new State Capitol building. Therefore the old campus was, in 1872, sold to the city, and with part of the proceeds the College acquired toward the southwest its present campus of about 80 acres, its western boundary a lava escarpment falling off abruptly, and with open fields sloping gently to the east. This was known by the early colonists as Rocky Hill; during the Revolution it was called Gallows Hill, and was the place for public executions. As later agreed on by the City of Hartford and the Trustees of the College, land including the cliff, known as the Stone Quarries, became a public park called Rocky Ridge Park.

In 1875 ground was broken for two new buildings designed by the eminent English architect Thomas Burges, as part of an elaborate plan of quadrangles; Seabury Hall, containing the public rooms, and Jarvis Hall, the dormitory, named after buildings on the old campus, were occupied in 1878. A few years later they were connected by impressive Northam Towers, thus forming a line of French Gothic brownstone over 600 feet long, looking down over the Connecticut River valley to the east, and toward Farmington and the Talcott Mountain ridge to the west. In later years this

line was further extended to the north by the library, a gift of J. Pierpont Morgan, and bearing the name of his friend Bishop Williams, and to the south by the college dining hall. The north side of the quadrangle is at present indicated by a wing of Williams Memorial and by the great Chapel, the gift of Mr. William G. Mather, '75; the south side is formed by the new dormitories and the large Chemistry Laboratory, with its auditorium seating 500.

The land, buildings, and equipment of Trinity College are now valued at \$3,743,000; this, together with an endowment of \$3,538,000, puts the College upon a firm material foundation.

Trinity College has achieved and maintained a similarly firm educational standing. In an age as rapidly changing as ours, blind inflexibility would invite disaster, and experiments to discover methods for wise change are of great importance. Indeed, Trinity is in the forefront of one such experiment. In the past Greek and Latin occupied perhaps the most important part in college education. Lest their great value be increasingly neglected, Trinity College is developing a group of courses centered around a course in Linguistics, all designed to preserve, in practicable form, a fruitful knowledge of the classic languages and civilization.

The essentials of a liberal education can not be profoundly altered in order to follow fashionable trends. Some acquaintance with fundamental natural science, with social sciences, and with values as considered by the arts, philosophy, and religion, are essential. Therefore, a well-proportioned training, flexible in detail but including these fundamentals, has been what Trinity College has striven to give to its students.

Trinity is the only small New England college in a city, which furnishes exceptional cultural opportunities. For example, the courses in Fine Arts are closely related to the very active city art museum. Hartford has many musical events through the year, especially symphony concerts by the country's finest orchestras. And

the four large libraries: of the State, the City, the Connecticut Historical Society, and the theological library of the Hartford Seminary Foundation, supplement Trinity's own library, which is well-selected, generally adequate, and in some directions rich. Thus there are available facilities for study to be paralleled only by the largest cities and universities.

These high standards and abundant resources have resulted in scholastic attainment. A Trinity degree, it can be honestly said, implies real intellectual discipline in the essentials of human culture. It is notable that approximately two-fifths of the Trinity graduates proceed to further scholastic work in professional schools.

Pervading the life of the College is the silent influence of the Chapel. With its beauty and its dignity, it is a constant reminder that the college man does not live by bread, nor even by the intellect, alone.

## Admission to College

### Requirements for Admission

**A**LL communications regarding admission, requests for the College Bulletin, application blanks, blanks for transcripts of school records, information regarding school and college curricula, and the like should be addressed to the Secretary of Admissions, Trinity College, Hartford, Connecticut. Applicants should secure from the Secretary the blanks requisite in applying for admission and return them at as early a date as possible.

Candidates for admission to the Freshman Class must be at least fifteen years of age, and must bring testimonials of good moral character, preferably from the principal of the school last attended. Those who are from other colleges must present certificates of honorable dismissal in good standing. All testimonials and certificates should be presented as early as possible, and preference will be given to early applications.

All candidates for admission are required to take the scholastic aptitude test offered at the College in September. All candidates are required to present a certificate of vaccination.

Every candidate for admission must pay the Registration Fee of ten dollars (five dollars returnable in case of withdrawal before August 15). Checks should be made payable to the "Trustees of Trinity College." An additional fee of ten dollars is charged by the College Entrance Examination Board to men taking the June examinations.

To meet the scholastic requirements for admission candidates ordinarily will have pursued in a secondary school a four years' course of study leading to graduation.

The regular academic requirement for admission is 15 units in approved subjects as listed below. Applications of candidates with superior academic qualifications will be considered if their records include not less than 13 such units. When a candidate has followed the standard college preparatory curriculum in his school and has been graduated, his record may be considered despite some variation between the subjects he presents and those on the list of approved subjects. A unit represents a year's study in a secondary school, constituting approximately a quarter of a full year's work. It is assumed that the study is pursued five periods a week for an entire school year.

Inability to write good English will be sufficient ground for the rejection of a candidate.

Admission credits are acceptable in the following subjects: English, Ancient History, European History, English History, American History (with or without Civil Government), Latin, Greek, French, German, Spanish, Elementary Algebra, Plane Geometry, Advanced Algebra, Trigonometry, Solid Geometry, Biology, Chemistry, and Physics. The four years' work in English is reckoned as three units, which may not be divided in certification. The first two years' work in a foreign language must be presented as two units, undivided; they may, however, be separated in certification from a third year's work or a fourth year's work in that language. Similarly, Elementary Algebra (sometimes called Intermediate Algebra) is two units, and may not be divided; if it is completed in less than two full years of school work, it is nevertheless reckoned as two units.

All candidates must include in their admission credits four years' work in English (3 units), History (1 unit), Elementary Algebra (2 units), and Plane Geometry (1 unit).

Not more than 3 units in History may be presented by any candidate. It is recommended that candidates for the degree of Bachelor of Arts present History A (Ancient History).

The scholastic requirements for admission may be satisfied by one of the methods explained in detail below:

1. Certification.
2. Examinations under Plan A.
3. Examinations under Plan B.
4. Certification and Examinations.
5. Regents' Examinations.

### 1. Certification

Candidates for admission to the Freshman Class presenting certificates from certain schools which have courses of instruction approved by the Faculty are admitted without further examination on the studies covered by the certificates.

To satisfy the academic requirements for admission by school certification, a candidate should be certified by the head of the school in sufficient units of approved subjects (English, Mathematics, History, foreign language, and Science) as listed on *page 27*. The grade required for certification is determined by the school. No student will be admitted on certificate unless he is a graduate of the school from which he comes; but no person not a graduate is thereby precluded from presenting himself for admission by examinations under Plan A (or by Regents' Examinations). Candidates who are graduates may combine credits by certification with credits by examinations under Plan A or Regents' Examinations.

Certificates will not be accepted for more than the total number of units required for admission. But this does not preclude fully certified candidates from offering themselves for examination in additional studies of the examination programme, as stated on *page 29-30*.

The privilege of certification will be withdrawn from the certifying school if it becomes evident that the preparation of students from it is materially defective.

Certificates should be addressed to the Secretary of Admissions; they will not be considered until the Registration Fee of ten dollars is paid. Checks should be made payable to the "Trustees of Trinity College."

## 2. Examinations under Plan A

Admission by Plan A examinations is similar to admission by certification except that credit in each subject is secured by passing a College Entrance Examination Board examination. Examinations are offered in the following subjects. The scale of values indicated is expressed in terms of units adopted by the Board.

<i>Subject</i>	<i>Units</i>
English (Four Years)	3
History A (Ancient History)	1
History B (European History)	1
History C (English History)	1
History D (American History, with or without Civil Government)	1
History CD (English History and American History)	2
History DE (American History and Contemporary Civilization)	2
Latin 2 (Two-Year Latin)*	2
Latin 3 (Three-Year Latin)*	3
Latin 4 (Four-Year Latin)*	4
Latin H Fourth Year Latin (Poetry)	1
Latin K Fourth Year Latin (Prose)	1
Greek 2 (Two-Year Greek)	2
Greek H (Homer)†	1
French 2 (Two-Year French)	2
French 3 (Three-Year French)	3
French 4 (Four-Year French)	4
German 2 (Two-Year German)	2
German 3 (Three-Year German)	3
German 4 (Four-Year German)	4
Spanish 2 (Two-Year Spanish)	2

\* Candidates who may desire to satisfy the requirements in Latin by other examinations offered by the College Entrance Examination Board should inform themselves as to which examinations will be satisfactory.

† For candidates already credited with 2 units in the subject.

Spanish 3 (Three-Year Spanish)	3
Spanish 4 (Four-Year Spanish)	4
Mathematics A (Elementary Algebra)	2
Mathematics C (Plane Geometry)	1
Mathematics Beta	3
Mathematics Gamma	4
Biology	1
Chemistry	1
Physics	1
Biological Sciences—Two Years	2
Physical Sciences—Two Years	2

Candidates taking examinations under Plan A or Plan B should secure detailed information regarding definitions of the subjects and procedure in registering for examinations from the College Entrance Examination Board. (See under "College Entrance Examination Board," *pages 31-32.*)

### 3. Examinations under Plan B

A graduate of a school which has an approved four-year course of study (including English, Mathematics, and foreign languages) will be admitted to the Freshman Class on the following conditions:

He must file an application for admission by this method, and must submit therewith a transcript of his record in school. If the school record is found satisfactory, he will be given permission to take the examinations under Plan B. These examinations are given by the College Entrance Examination Board. He must write satisfactory papers in the examinations for admission in English, and in three of the following six subjects: (1) Latin; (2) Greek; (3) German; (4) French; (5) Mathematics; (6) a science (Physics or Chemistry). Requests to substitute another subject for one of these will be considered by the Committee on Admission. The four examinations under Plan B must all be taken in the year in which the candidate expects to enter college. Under this plan, the candidate must take all four of these examinations whether or

not he has been certified in, or previously passed examinations in, any of the four subjects. The examination should, in each case, include the last year's work done by the candidate in each subject.

#### 4. Certification and Examinations

Candidates may, with the permission of the College, combine credits by certification with credits by admission examinations in satisfaction of the academic requirements for admission.

#### 5. Regents' Examinations

The credentials issued by the Regents of the University of the State of New York will be accepted in satisfaction of the academic requirements for admission.

### College Entrance Examination Board

The College Entrance Examination Board will administer three series of examinations in 1941. On Saturday, April 5, it will hold the Scholastic Aptitude Test (including a mathematical section) and an achievement test. On Saturday, June 14, the Board will hold the Scholastic Aptitude Test (not including the mathematical section) and during the following week examinations in college preparatory subjects. On September 8, 9, and 10, the Board will offer the Scholastic Aptitude Test (not including the mathematical section) and tests in the majority of college preparatory subjects. Separate bulletins regarding each series, containing the places of examination and other information, may be obtained without charge from the Executive Secretary of the College Entrance Examination Board. A list of places at which the June examinations are to be held is published annually about March 1.

Candidates for any of the three series should make application by mail to the Executive Secretary of the College Entrance Examination Board, 431 West 117th. Street, New York, N. Y. Blank forms for this purpose will be sent to any teacher or candi-

date upon request. In order to facilitate the making of arrangements for the conduct of examinations, all applications should be filed as early as possible. Each application should be accompanied by a fee of ten dollars, except for candidates taking only the Scholastic Aptitude Test for whom the fee is five dollars.

The applications and fees of all candidates who wish to take the examinations should reach the Executive Secretary of the Board not later than the dates specified in the following schedule:

For examination centers	June Series	April Series	September Series
East of the Mississippi River or on the Mississippi.....	May 26	March 15	August 18
West of the Mississippi River or in Canada or Mexico.....	May 19	March 8	August 11
Outside of the United States, Canada, and Mexico, ex- cept in Asia.....	May 5	.....	.....
In China or elsewhere in the Orient .....	April 21	.....	.....

An application which reaches the Executive Secretary later than the scheduled date will be subject to a penalty fee of five dollars in addition to the regular fee.

When a candidate has failed to obtain the required blank form of application, the regular fee will be accepted if it arrives before the required date and is accompanied by the candidate's name and address, the exact examination center selected, the college to which his report is to be sent, and a list of the subjects in which he is to be examined.

### The Scholastic Aptitude Test

A candidate desiring to take the Scholastic Aptitude Test even though he is to take no other examination, must file with the

Executive Secretary of the Board the usual application for examination. Each candidate who registers for the test will receive a practice form. In order to secure admission to the test, the candidate must present not only his ticket of admission and identification card but also the answer sheet for the practice booklet with the spaces filled in as directed.

It is advisable that applicants take the Scholastic Aptitude test given by the College Entrance Examination Board. Those applying for scholarship aid should take the April test in order to receive early consideration. Later scholarship applicants may take the test in June. Other applicants for admission not candidates for scholarships may take the test in April or June.

### Anticipation of College Studies

Candidates for Admission, besides satisfying the Requirements for Admission, may accumulate additional credits by passing also examinations upon such of the courses of instruction offered by the College as may properly be anticipated by examinations. The College courses in French, German, and Spanish, numbered 1, 2, and 3, may be anticipated by the College Entrance Examination Board's examination in those subjects numbered respectively Cp. 2, Cp. 3 (or B), and Cp. 4. Likewise Plane Trigonometry and Solid Geometry may be anticipated by the College Entrance Examination Board's examination in those subjects. Examinations in other subjects will be held in Hartford only at the time of the examinations for admission in September, provided that not less than two weeks' notice of intention to take such examinations shall have been given by the candidate to the Registrar.

Except in English, History, Elementary Algebra, and Plane Geometry, opportunity to pass by examination subjects which may be offered for admission ordinarily ceases with admission to College.

## Admission to Advanced Standing

Students who have been in attendance for not less than one year at other colleges of a grade similar to Trinity College and who present letters of honorable dismissal in good standing and who otherwise satisfy the Committee on Admission will be admitted, in such advanced standing as their previous record may warrant. The papers of such candidates, together with a catalogue of the college previously attended, should be sent to the Secretary of the Committee on Admission not less than three weeks before the beginning of the college year.

## Special Students

Students regularly admitted who do not propose to pursue all the studies of either of the courses leading to a degree may be permitted, under the name of Special Students, to attend any class in such studies as they are found qualified to pursue. They are subject to the same rules and enjoy the same privileges as other students; and, upon honorable dismissal, they are entitled to a certificate from the President, stating the studies which they have pursued. All special students will be required to pursue studies amounting to at least twelve hours a week.

## Non-Matriculated Students

Persons of maturer years, who may desire to pursue the study of one or more subjects as non-resident students, may, upon satisfying the instructors concerned that they are qualified to perform the work in those subjects which they propose to elect, be admitted by vote of the Faculty, as non-resident students without matriculation. But they will not be allowed to count courses pursued in College toward satisfying the requirements for admission. Such students are not members of the College, and they are not eligible for scholarship aid.

## Registration

All students are required to register on or before the first day of the Christmas Term at the office of the Registrar.

A registration fee of ten dollars (five dollars returnable in case of withdrawal before August 15) must accompany each application for admission.

## Matriculation

Matriculation consists in signing, in the presence of the President and two or more Professors, the following promise:

"I promise to observe the Statutes of TRINITY COLLEGE; to obey all its Rules and Regulations; to discharge faithfully all scholastic duties imposed upon me; and to maintain and defend all the rights, privileges, and immunities of the College, according to my station and degree in the same."

All duly qualified students are matriculated on or about the first day of November (All Saints' Day—Founders' and Benefactors' Day).

## Expenses

THE annual charge at Trinity College is \$400, which includes tuition and all fees with the exception of the registration fee of \$10, student group accident insurance at \$13, and a Chemistry breakage deposit fee of \$5 for those taking Chemistry. All laboratory fees, athletic fees, library fees, student taxes, and incidentals are covered by the charge of \$400, \$200 of which is payable on or before September 10, and for the second semester \$200 in advance. These fees must be paid before students may register, and an extra fee of \$5 is exacted for late registration in either semester.

It is understood that of this amount, \$250 covers the charge for tuition; students holding scholarships entitling them to free tuition only, will be required to pay \$150 a year to cover fees other than tuition.

The rooms in the dormitories rent for \$100, \$120, \$140, \$160, \$200, and \$240 a year for each student. The number of rooms at the lower prices is limited. Rooms are assigned as nearly as possible in accordance with the desires of the applicant, in the order of application. Resident students may secure assignment of rooms for the ensuing year by paying a deposit of \$10 before May 1. Newly admitted students should notify the Comptroller of their preference as to the cost and location of a room. A deposit fee of \$10 (returnable in case of withdrawal before August 15) is required with each room application. This is credited to room rent when the bill for the first semester is rendered.

Board may be obtained in the College Commons at \$8 a week, making the cost for the thirty-five weeks approximately \$280. Students are not required to eat in the College dining hall, and many of them board at the fraternity houses, where the cost

per week is somewhat more. To this must be added laundry charges, together with the expense of books, clothing (including a uniform for physical education), and travel, which items vary so much in the case of individual students that no accurate estimate can be given. If a student lives economically, it is estimated that his expenses for a year will be about \$800. The figure of \$900 represents a more liberal minimum.

A registration fee of \$10 (\$5 returnable in case of withdrawal before August 15) must be paid by each new student before registration (*see page 26*).

**FEES FOR SINGLE COURSES.** The fee for a single course of instruction (three hours per week) is \$90, and for the second course \$80, and for the third course \$80, not including laboratory fees.

**FEES FOR EXTRA COURSES.** A fee of \$30 is charged for each additional course over the five in which a student is normally enrolled.

**FEES FOR THE MASTER'S DEGREE.** A fee of \$35 (which includes also the diploma fee) is charged for registration and examination for the degree of Master of Arts or Master of Science, except in the case of candidates who have paid not less than one year's full tuition and fees (\$300 for resident graduate students), who are liable only for the registration fee. This fee must be paid when the applicant has been accepted as a candidate for the degree.

**PAYMENT OF COLLEGE BILLS.** The charges for tuition and fees for the Christmas Term must be paid on or before September 10 at the College office. The bills for the Trinity Term must be paid on or before the beginning of the term. Nothing is deducted or refunded for courses dropped, or for absence, unless occasioned by illness, nor in such cases for a period less than half a term. Students withdrawing from college cannot expect any refund of college charges which have been paid.

All checks should be made payable to the order of the "Trustees of Trinity College," and communications regarding bills should be addressed to the Comptroller.

No student may receive his degree, or an honorable dismissal, until the Comptroller certifies that all his college bills have been paid, and that, so far as the Comptroller knows, there are no lawful claims against him for board, laundry, or light.

**STUDENT EMPLOYMENT.** While it has proved possible for students to earn a considerable part of their college expenses by work out of class hours, experience has shown that a Freshman should not expect to be able to take regular outside employment and at the same time maintain his studies satisfactorily. It is strongly recommended, therefore, that no student come to college unless he is able to maintain himself for at least the first half-year without the necessity of earning funds for his college bills or his board.

## Rooms and Medical Care

Many of the rooms in the college dormitories are so arranged that two students rooming together have a common study and separate bedrooms. There are also a large number of single and double rooms. Each room is provided with the essential articles of furniture, bed, mattress, bureau, desk, chairs, but the student supplies his own rugs, reading lamp, pillow, blankets, and linen. The room rent includes heat and care, but not electricity (except in Goodwin and Woodward).

Every student will be required to sign an agreement covering the terms upon which his room is assigned to him, and he will be held responsible for all damage done to his room during his occupancy.

All students who are not living at home are required to reside in the College dormitories unless they have permission from the President to room elsewhere. The College dormitories are: Jarvis Hall, Northam Towers, Seabury Hall, Cook Dormitory, and Goodwin and Woodward Dormitory.

When resident students are ill, if they will leave notice at the College Office before 8:50 A.M., they will be visited by the Medical Director or his Assistant as soon as possible, for tentative diagnosis. The College does not undertake to provide for treatment or hospitalization; all students, whether resident or not, should be prepared to pay for medical care at their own expense.

In emergency prompt notification is sent to parents, but obviously the college authorities reserve the right to act as seems best for the physical welfare of the student concerned if parents cannot be reached.

## Course of Study and Degrees

THE College course normally requires four years for its completion. Students completing in four years the one hundred and twenty semester hours required for the degree of Bachelor of Arts or Bachelor of Science, including courses specifically required, with the grades required for graduation, will be recommended to the Trustees for their respective degrees without regard to deficiencies at admission.

### The Course of Study

The following schedules show the studies of the Freshman year and of the several groups.

Freshmen may elect from 26 to 36 semester hours of work.\* They are required to take Mathematics A, 1T, or 1†, and English A, and either a laboratory science (Biology, Chemistry, Physics) or a foreign language (Greek, Latin, French, German, Linguistics), and Physical Education.

The following are the courses that are open to Freshmen:

Biology A	Greek A or 1
Chemistry 1, 1-2, or 2	History 1
Civil Engineering 1 ab	Hygiene 1b
Drawing A or 1	Latin A, B, or 1
English A	Linguistics 1
French 1, 2, or 3	Mathematics A, 1, or 1T
Fine Arts 1 ab	Physics A or 1
German 1 or 2	Religion 1 b

\* Students intending to elect Group Five should elect History 1.

† Students intending to elect Group One may substitute a Science for Mathematics 1 or 1T.

### Sophomore, Junior, and Senior Years

At the close of the Freshman year, the student will elect one of the twelve Groups of Studies described below. The completion of

the studies of one of these Groups, together with credit for certain subjects specified in the statement of the Requirements for Degrees, is essential to the attainment of a degree. The object of these prescriptions is twofold: first, to acquaint the student with certain fundamental subjects; and secondly, taking into account special aptitudes and interests, and plans for a future occupation, to ensure that he shall carry his studies in some subjects beyond the elementary stage. Though the college is in no sense a professional or technical school, yet the curriculum is planned so as to make it possible for a student to secure adequate training for study, after graduation, in such schools. It is believed that a course of study of this character is likely to prepare the student more adequately than an equal amount of work chosen with a less definite intention. Studies aggregating at least fifteen hours per week are to be chosen from the courses described on *pages 59-85*. In choosing these studies students must take into account the necessity of including among their courses the subjects specifically required for their respective degrees and the subjects making up the Group elected.

Freshmen are urged to inform themselves regarding the various Groups, in consultation with instructors in the various Departments concerned, so that they may make any advisable change in their choice of a Group not later than the Sophomore year.

## The Groups

### 1. The Classics

*Four courses in Latin and Greek in college\** (including at least one course in each subject, and one course beyond Latin 2 or Greek 1, but not including Greek 4); and two other courses closely related to each other and approved by the Department of Classical Languages.

---

\* Italics denote courses in which a grade of 70 or better is required.

## 2. Modern Languages

Four courses in French and German in college; including *French* 3, 4, and 5 or 6, and German 3; or *German* 3, 4, and 5 or 6, and French 3.

## 3. English

*Five courses in English* in addition to English A, including English 12 or 15, but not including English D.

## 4. Economics

*Four courses in Economics* including Economics 10, and two related courses approved by the Department of Economics.

## 5. History

*Four courses in History* in addition to History 1 and including two upper-class courses, and two other advanced courses in a related field.

## 6. Philosophy

*Four courses in Philosophy or Psychology* including Philosophy 15, and three other courses closely related to each other and approved by the Department of Philosophy.

## 7. Chemistry

Five courses in Chemistry including one year of Organic Chemistry, Physical Chemistry, and Quantitative Analysis, Physics 2, and Mathematics 2. *A grade of 70 or better must be obtained in four Chemistry courses beyond the first course taken in college.*

## 8. Physics

*Four courses in Physics, Mathematics* 1, 2, and 3, and one course in Chemistry.

### 9. Biology and Pre-Medical

Biology 1 and 2; three and one-half courses in Chemistry, including Chemistry 3a, 6, 7a and 10b; Mathematics 1; Physics 1; and Physiology 1 or 2. *A grade of 70 or better must be obtained in Biology 1 and 2, Physiology 1 or 2, and in all required Chemistry courses beyond the first course taken in college.*

### 10. Preparatory to Engineering

Four courses in Civil Engineering and Drawing and Astronomy, two in Mathematics, and four in Physics and Chemistry; all to be taken in college. *A grade of 70 or better is required in Civil Engineering 1 and 2, in Astronomy, and in Mathematics 1.*

### 11. General Science

Five courses as follows, Biology 1, Geology 1, Mathematics 1 or 1T, Physics 1, and one course in Chemistry; an additional course in three of the above subjects (Physiology may count as one course in Biology); two more courses in the following: Astronomy, Biology, Chemistry, Engineering, Geology, Mathematics, Philosophy 10, Physics, Physiology. *A grade of 75 or better must be obtained in 6 of the 10 required courses.*

### 12. Mathematics

Four courses in Mathematics, including Mathematics 4, and Physics 3; or five courses in Mathematics and Physics 1. *A grade of 70 or better must be obtained in at least four of the courses taken in the Mathematics Department.*

## Enrollment in Courses

A student in making his elections for a given year should be careful to take into account the choices which the schedule allows for the following year, as well as the subjects specifically required for his degree (*see pages 47-48*) and the subjects making up the

Group he has elected. In May of each year there is published an announcement of the courses to be given the following year.

Notices of choices, stating the subject and number of each course and the period in which it belongs, must be presented in writing to the Committee on Registration in Courses. During the first full week in May every student in the College must present his choice of studies for the next year to his adviser or pay \$5.00 to the Comptroller on later enrollment. In September all students must present their choices of studies for the year to the Committee not later than 11:00 A. M. on the Saturday of the week in which the college year begins or pay \$5.00 to the Comptroller on later enrollment. No student in regular standing is allowed to enroll himself during any one term, in less than thirteen or more than twenty-two semester hours of work; and for all courses in excess of five he must obtain special permission from the Committee on Registration in Courses and pay a fee of \$30 for each additional course.

All matriculated students must complete the requirements in Physical Education (*see page 80*).

All college fees for the Trinity Term must be paid before the opening of the Trinity Term.

Change in elections will be allowed in exceptional cases, but ordinarily a fee of \$5.00 will be charged for this. In general, a change cannot be made after the first day of October. Petitions to make such changes must be presented in writing to the Secretary of the Committee, on forms provided for that purpose.

Normally the total number of semester hours standing to the credit of the student at the beginning of the several years will be as follows:

At beginning of Sophomore year	30 semester hours
At beginning of Junior year	60    "    "
At beginning of Senior year	90    "    "
Required for graduation	120    "    "

## Credit for Work in Summer Schools

Work done at an approved summer school may be counted toward satisfying the requirements for a degree. In order to have such work so counted, application must be made to the Committee on Examinations and Standing, and its approval secured before taking up the work. The applicant must state the courses proposed and the institution he proposes to attend. No course will be approved that duplicates in any way work previously credited to the applicant. The Faculty reserves the right to examine upon all such work before allowing credit therefor.

## Standing

At the close of each term a report of the scholarship of each student is sent to his parents or guardian.

The official estimate of the work of each student in each course of study is indicated on the basis of one hundred. Grades below sixty denote failures.

A "condition" is a special grade given by the instructor when in his opinion there is a deficiency that may be made up without repeating the course. A student "conditioned" in a course will be credited with that course if he shall pass a satisfactory examination at the stated time for making up conditions; and he shall have but one trial. If he fails at this, he shall be considered as having failed in the course. There is one stated time for making up conditions: namely at specified periods during the week before the opening of College in September.

In the courses presented for graduation (including all required courses) the number of grades below seventy shall not exceed the number of grades of eighty or better by more than six.

Any matriculated student whose record of work completed at the end of a term is less than twelve semester hours will be put on probation for the following term.

Any matriculated student whose record of work completed at the end of a term is less than nine semester hours will be liable to dismissal.

Any student, for neglect of work, may at any time be put on probation by vote of the Faculty.

When a student is placed on probation, notice of this action will be sent to his parent or guardian.

A student on probation will not be permitted to be manager or assistant manager of any college organization, or to take part in any public musical or dramatic performance, or in any public athletic contest; and he may be required to put himself under the direction of a private tutor approved by the Faculty. But nothing in this section is to be so construed as to forbid students on probation to engage in intramural sports.

The College may at any time require any student to withdraw without assigning a reason therefor.

### Requirements for the Degrees of B.A. and B.S.

In order to be recommended for a Bachelor's Degree, a candidate

(1) must have completed not less than 120 semester hours of college work;

(2) must have secured grades of 70 or better in at least 84 semester hours of college work; or have grades of 80 or better to offset any excess of grades below 70;

(3) must have credits for the courses required in one of the twelve Groups of Studies specified on *pages 41-43*;

(4) must have a grade of 70 or better in the specified courses in his major subject, in order to have the course credited toward fulfilling his Group requirements;

(5) must have completed satisfactorily the requirements in Physical Education, and in attendance at Chapel;

(6) must have received full credit for all courses specifically required for the degree for which he applies, as enumerated below.

A candidate for the degree of BACHELOR OF ARTS must include in his course of study.

Greek <i>and</i> , or Latin	} 3 courses in college (Latin B may be counted only if Latin 1 and 2 are taken subsequently.)
English A	1 course
Psychology 1, <i>or</i> Philosophy 2 or 4	1 course
French 1 and 2 <i>or</i> German 1 and 2 <i>or</i> French 1 and German 1	} 2 courses
Mathematics*	1 course
Physics <i>or</i> Chemistry <i>or</i> Biology	} 1 course
Mathematics <i>or</i> Science†	} 1 additional course

Upon the successful completion of the course in Linguistics, students in Groups 2 through 6 who have had Latin A may further offer instead of the requirement in Greek or Latin for the degree of Bachelor of Arts two of the following four courses: Greek 4, English 14, History 3, Philosophy 16 (or 15); and they must also complete either French 4 or German 3. Students who have not had Latin A must offer three of the above four courses.

A candidate for the degree of BACHELOR OF SCIENCE electing one of the Groups numbered 2 through 6 must include in his course of study

English A	1 course
Psychology 1 <i>or</i> Philosophy 2 or 4	1 course
French 1 and 2	2 courses

\* Students intending to elect Group 1 may substitute a Science for Mathematics 1 or 1T.

† Science courses include: Astronomy, Biology, C. E. 1, C. E. 4, Chemistry, Geology, Physics, Physiology, and Psychology 5. (Psychology 5 counts as a Laboratory Science for Arts Students, as a Science for others.)

German 1 and 2	2 courses
Mathematics A, <i>or</i> 1T, <i>or</i> 1	1 course
Science	1 laboratory course†
Mathematics <i>or</i> Science‡	} 2 additional courses

A candidate electing one of the Groups numbered 7 through 12 must include in his course of study

English A	1 course
Psychology 1, <i>or</i> Philosophy 2 <i>or</i> 4	1 course
German 1, 2, and 3 <i>or</i> French 1 and 2, and German 1 and 2	} 3 or 4 courses
English <i>or</i> Economics <i>or</i> History	} 2 courses not in the same department

## Requirements for the Degrees of M.A. and M.S.

The degree of Master of Arts or Master of Science will be conferred upon Bachelors of Arts or of Science of this College or of other colleges approved by this Faculty, who shall have satisfied the requirements as stated in the following paragraphs:

The applicant must register with the Committee on Graduate Students and must present a programme of study for approval not later than the tenth of October of each year in which he desires to be considered a candidate. He must, in one of the twelve Groups of studies, complete at least two courses beyond the minimum requirement in his principal subject. He must also complete two additional courses in the same Group or in some other Group approved by the Committee and by the head of the department in which they are taken. These last two courses must in general be

† Science courses include: Astronomy, Biology, C. E. 1, C. E. 4, Chemistry, Geology, Physics, Physiology, and Philosophy 5. (Philosophy 5 counts as a Laboratory Science for Arts Students, as a Science for others.)

‡ Laboratory courses include: Biology A and 1, Chemistry 1, 1-2, and 2, Physiology 4, Physics A, 1, and 2.

not more elementary than the third year of college work in the department in which they are elected. He must have a reading knowledge of Latin, or Greek, or French, or German, and must have taken, as an undergraduate or as a graduate student, one laboratory science. He must also present a satisfactory thesis.

Examinations on graduate work will be held at the College at the time of the regular examinations of Trinity Term, or at such other time as may be appointed. No course will be credited for the Master's Degree in which the grade attained is less than eighty.

Undergraduates who desire to take extra courses which they may wish to count later toward the Master's Degree must receive the approval of the committee before October tenth.

By arrangement with the Hartford Seminary Foundation, students of that institution who are candidates for the Master's Degree in Trinity College may elect a part of the courses required for the Master's Degree from certain approved courses offered by the Hartford Seminary Foundation.

Graduates of other colleges desiring either of these degrees must study as resident graduate students at Trinity College for not less than one year. Not more than nine semester hours' credit will be given for work done at another institution.

No candidate will be recommended for a degree unless his work shall have been completed on or before the Thursday immediately preceding Commencement.

### Extension Courses

Trinity College offers a number of courses in extension each year during the regular college session, meeting in the late afternoon and in the evening. They are similar to regular courses on the campus in regards to standards, content, and method of instruction. All of the subjects offered carry degree credit; a few may be used for credit toward the Master's Degree. Such credit

is transferable to other colleges subject to the regulations of the institution to which the transfer is to be made.

Detailed information can be obtained from the Director of Extension, Dr. Irwin A. Buell. A bulletin of extension courses will be mailed on request.

### Summer School

Since 1934 Trinity College has conducted a Summer School with a term of six weeks beginning in the first week of July. Nearly all of the courses are duplications of courses given during the regular session. All instruction in the Summer School is offered by members of the College Faculty.

Detailed information can be obtained from the Director of the Summer School, Dr. Irwin A. Buell. A special bulletin lists the courses and instructors.

### Advisers

During his first term in College, a student is assigned to a member of the Faculty who will act as his adviser. The student is expected to consult him as to his choice of a Group, the relation of his studies to his occupation in life, and indeed on any other subject or problem of college life in which he feels the need of counsel.

### Planning a Course of Study

Since a rational plan of study deliberately made and conscientiously pursued is far more profitable than studies chosen from year to year without plan under the influence of temporary preferences, students are strongly urged to choose their studies with the greatest care, under the best advice, and in such manner that the work of their college course may form a rationally connected whole. To this end the Faculty has arranged groups of studies that may profitably be pursued by those who intend to

devote themselves to certain professions. For example, a student planning to enter the Ministry might elect Group 1 or Group 6; a student expecting to study Law, Group 4 or Group 5; Medicine, Group 9; Engineering, Group 10; Business, Group 4 or Group 5. In a group of studies leading to a scientific profession the sequence of the courses is important. For this reason a number of plans are given below in each of which the sequence of the courses is specified.

A student who desires to emphasize a particular branch of learning which is not given sufficient prominence in any of the plans outlined below, may do so (1) by electing a Group which best lends itself to this purpose, (2) by choosing electives with the desired emphasis in view, and (3) by substituting courses from the particular branch desired for one or more of the courses listed below.

In choosing electives the student should have requirements for degrees in view.

### First Year

The recommended studies of the Freshman year are the same for all students in Groups 7 to 12, with the exception of Chemistry, which is replaced by Drawing (Dr. A or 1) for students in Group 10.

Plane Trigonometry, Introduction to Analytical Geometry and Calculus (Math. 1T or 1)

Physics (Phys. 1)

Chemistry 1, or 1-2, or 2

English Composition (Eng. A)

French or German (Fr. 1 or 2 or Ger. 1 or 2) or Greek or Latin

### Biology

IN CHARGE—PROFESSOR BISSONNETTE

The following plan is recommended to students who expect to pursue graduate studies in Biology.

## Second Year

General Biology (Biol. 1)  
Organic Chemistry (Chem. 6)  
Psychology 1, or Philosophy 2 or 4  
Electives

## Third Year

Comparative Anatomy of Vertebrates (Biol. 2)  
Quantitative Analysis (Chem. 3a)  
Physiology 1  
Biological Chemistry (Chem. 7a)  
English Literature (Eng. 1 or 14)  
Elective

## Fourth Year

Vertebrate Embryology (Biol. 3) and Microscopical Technique (Biol. 6)  
Genetics (Biol. 4a) and Invertebrate Zoölogy (Biol. 5b)  
Physiology 2  
Introduction to Economics (Ec. 1)  
Elective

*Suggested Electives:* American Government and Politics (Hist. 12), General and Personal Hygiene (Hyg. 1b), History of Philosophy (Phil. 15 or 16), Differential and Integral Calculus (Math. 2), Physical Chemistry (Chem. 10b), Microbiology (Physiol. 4), Physical and Historical Geology (Geol. 1), Palaeontology (Geol. 2), History of Great Scientific Ideas (Phil. 10).

## Chemistry and Chemical Engineering

IN CHARGE—PROFESSOR KRIEBLE

The following plan is suggested for students who expect to teach Chemistry or to become Chemical Engineers. It includes the fundamental subjects in Chemistry, Physics, and Mathematics and furnishes a satisfactory basis on which to continue Chemistry in a graduate school.

## Second Year

Differential and Integral Calculus (Math. 2)  
Light and Electricity (Phys. 2)

Quantitative Analysis 3a and Physical Chemistry 10b  
Psychology 1, or Philosophy 2 or 4  
Elective

### Third Year

Quantitative Analysis (Chem. 4) or Physical Chemistry (Chem. 11)  
Organic Chemistry (Chem. 6)  
Analytical and Applied Mechanics (Phys. 3 or Math. 3)  
Introduction to Economics (Ec. 1)  
Elective

### Fourth Year

Physical Chemistry (Chem. 11) or Gravimetric Quantitative Analysis (Chem. 4)  
Organic Chemistry (Chem. 7a and 8 or 9)  
Recent Physics and Advanced Laboratory Physics (Phys. 6)  
Electives

Students who intend to complete their chemical education by finishing a course in chemical engineering in a technical school should follow the same plan as the chemists for the first, second, and third years, but their electives and fourth year subjects should include the following:

Elementary Electrical Engineering (Phys. 4)  
Strength of Materials (C. E. 2a)  
Mechanical Drawing (Draw. A or 1)

*Suggested Electives:* English Literature (Eng. 1 or 14), History of Philosophy (Phil. 15 or 16), United States History (Hist. 2), Elementary Geology (Geol. 1).

### Civil, Sanitary, and Mechanical Engineering

The following plan of study is adapted to the needs of students who intend to continue the study of Civil, Mechanical, and Sanitary Engineering either as postgraduate students in professional schools or by direct experience in engineering offices. The plan is also suited to the needs of those who expect to enter business allied to the Engineering professions.

## Second Year

Differential and Integral Calculus (Math. 2)  
Physics 2  
Surveying (C. E. 1)  
Psychology 1, or Philosophy 2 or 4  
Elective

## Third Year

Analytical Mechanics (Phys. 3)  
General Chemistry 1 or 2 or 1-2  
Astronomy 1 or Geology 1  
Electives

## Fourth Year

Strength of Materials and Hydraulics (C. E. 2)  
Introduction to Economics (Ec. 1)  
Electives

## Electrical Engineering

IN CHARGE—PROFESSOR PERKINS

The following plan of courses is recommended for those who contemplate fitting themselves for the profession of Electrical Engineering.

## Second Year

Differential and Integral Calculus (Math. 2)  
Light and Electricity (Phys. 2)  
Psychology 1, or Philosophy 2 or 4  
Electives

## Third Year

Analytical Geometry and Differential Equations (Math. 3)  
Analytical and Applied Mechanics (Phys. 3)  
Surveying (C. E. 1)  
Recent Physics and Advanced Laboratory Physics (Phys. 6)  
Elective

## Fourth Year

Elementary Electrical Engineering (Phys. 4)  
Mechanics of Materials and Hydraulics (C. E. 2)  
Thermodynamics and Electrodynamics (Phys. 5)  
Electives

*Suggested Electives:* Theoretical Chemistry and Qualitative Analysis (Chem. 2), Volumetric Quantitative Analysis (Chem. 3a) and Physical Chemistry (Chem. 10b), Astronomy (Astr. 1), English Literature (Eng. 1 or 14), Social Ethics (Phil. 2), Introduction to European History (Hist. 1).

## Mathematics

IN CHARGE—PROFESSOR DADOURIAN

The following plan of courses is adapted to the needs of students who intend to prepare themselves (a) to teach Mathematics in secondary schools, (b) to continue further study of Mathematics in graduate schools, and (c) to take actuarial positions.

## Second Year

Differential and Integral Calculus (Math. 2)  
Advanced Algebra (Math. 6) or Statistics (Math. 7)  
Light and Electricity (Phys. 2)  
Psychology 1, or Philosophy 2 or 4  
Elective

## Third Year

Analytical Geometry and Differential Equations (Math. 3)  
Analytical and Applied Mechanics (Phys. 3)  
Statistics (Math. 7) or Advanced Algebra (Math. 6)  
Introduction to Economics (Ec. 1)  
Elective

## Fourth Year

Advanced Calculus (Math. 4)  
Statistics (Math. 7) or Theory of Real and Complex Variables (Math. 5)  
Introduction to Theoretical Physics (Phys. 5)  
History of Great Scientific Ideas (Phil. 10)  
Elective

*Suggested Electives:* Mechanical Drawing (Dr. A), Astronomy (Astr. 1), Recent Physics (Phys. 6b), Elementary Geology (Geol. 1), English Literature (Eng. 1 or 14), Social Ethics (Phil. 2), History of Philosophy (Phil. 15 or 16), Introduction to European History (Hist. 1), Biology A.

## Preparatory to the Study of Medicine and Public Health

IN CHARGE—PROFESSOR SWAN

The following plan includes all the subjects required for admission to the leading medical schools.

### Second Year

General Biology (Biol. 1)  
Theoretical Chemistry and Qualitative Analysis (Chem. 2) or  
Chemistry 3a and Chemistry 10b  
Psychology 1, or Philosophy 2 or 4  
Elective

### Third Year

Comparative Anatomy of Vertebrates (Biol. 2)  
Microbiology (Physiol. 4)  
Organic Chemistry (Chem. 6)  
Elementary Physiology (Physiol. 1) or Advanced Physiology (Physiol. 2)  
Elective

### Fourth Year

Embryology (Biol. 3a) and Advanced Organic Chemistry (Chem. 7a)  
Electives

*Suggested Electives:* Elements of Economics (Ec. 1), English Literature (Eng. 1 or 14), Genetics (Biol. 4a), Greek for beginners (Greek A), Introduction to European History (Hist. 1), General and Personal Hygiene (Hyg. 1b), History of Philosophy (Phil. 15 or 16), Microscopical Technique (Biol. 6), other courses in Biology, Chemistry, Physics, and Physiology.

## Physics

IN CHARGE—PROFESSOR PERKINS

The following plan of courses is recommended for those who contemplate fitting themselves to teach Physics, or to qualify as experts in one of the rapidly increasing number of research laboratories attached to the larger manufacturing establishments.

### Second Year

Differential and Integral Calculus (Math. 2)

Light and Electricity (Phys. 2)

Psychology 1, or Philosophy 2 or 4

Theoretical Chemistry and Qualitative Analysis (Chem. 2) or Volumetric Quantitative Analysis (Chem. 3a) and Physical Chemistry (Chem. 10b)

Elective

### Third Year

Analytical Geometry and Differential Equations (Math. 3)

Analytical and Applied Mechanics (Phys. 3)

Recent Physics and Advanced Laboratory Physics (Phys. 6)

Electives

### Fourth Year

Thermodynamics and Electrodynamics (Phys. 5)

Advanced Calculus (Math. 4)

Electrical Measurements (Phys. 4a)

Electronics (Phys. 7b)

Electives

*Suggested Electives:* Mechanical Drawing (Dr. A), Astronomy (Astr. 1), English Literature (Eng. 1 or 14), Social Ethics (Phil. 2), History of Philosophy (Phil. 15 or 16), Introduction to European History (Hist. 1), Introduction to Economics (Ec. 1).

## Courses of Instruction

### Required, Elective, and Voluntary

EACH course, unless otherwise specified, meets three hours a week throughout the year and gives six semester hours of credit. Half courses meeting for one term only, carry three semester hours of credit; those meeting in the Christmas term only, are designated by the letter *a* after the number of the Half Course, those meeting in the Trinity Term are designated by the letter *b*. The Roman numerals following the description of each course indicate the period (see below) to which it belongs.

In addition to the regular courses of instruction, arrangements are made from time to time, at the convenience of instructors, for voluntary studies in such subjects as may profitably be pursued by undergraduates; but no voluntary study may be counted towards satisfying the requirements for any degree.

### Schedule of Periods

<i>Hours</i>	<i>Monday</i>	<i>Tuesday</i>	<i>Wednesday</i>	<i>Thursday</i>	<i>Friday</i>	<i>Saturday</i>

## Astronomy

1 Descriptive Astronomy. An introductory course dealing with fundamental facts, principles, and methods of astronomy. Elective for Sophomores, Juniors, and Seniors, who have taken Mathematics 1 or 1T and a course in Physics. Mr. Stearns (of Wesleyan University)

IV (Mon., Wed., Fri., 12:10)

## Biology

PROFESSOR BISSONNETTE, ASSISTANT PROFESSOR BURGER, AND  
DR. COPELAND

A. General Biology. Covers General Biology for non-scientific students. Does not satisfy requirements in general biology for Medical Schools. Elective for all students. Does not admit to Biology 2 or 5b. Limited to thirty. Mr. Copeland and Assistant

III & IV (Lectures, Mon., Fri., 12:10; Laboratory, Section A, Wed., 11:15-1:00; Section B, Mon., 2:00-3:45)

1 General Biology. The principles of biology, with lectures, textbook and laboratory work. A study of the gross and microscopical anatomy of the fundamental structures of animals and plants, of the physiology of their organs, and of their relations to one another and to man. A systematic survey of the animal and plant kingdoms, and an introduction to the theory of organic evolution and to other generalizations of biological science. Elective for Sophomores, Juniors, and Seniors. Limited to thirty. Mr. Burger and Assistant. 8 semester hours credit

XII & XIII (Lecture, Mon., Fri., 8:30; Laboratory, Section A, Tues., Thurs., 2:00-3:45; Section B, Mon., Fri., 9:25-11:10)

2 Vertebrate Comparative Anatomy and Zoölogy. Laboratory work, lectures, and reports. Elective for those who have passed course 1 with a grade of 70 or better. Mr. Bissonnette and Assistant

III & IV (Mon., Wed., Fri., 11:15-1:00)

3a General Embryology. Study of the early stages of development in invertebrates, fish, and amphibians. Embryological Theory. Exercises in micrometry, determination of magnification, etc. Laboratory work and seminar. Elective for those who have passed course 2 with a grade of 70 or better. Limited to ten. Mr. Bissonnette

I & II (Mon., Wed., Fri., 9:25-11:10) Christmas Term

3b Vertebrate Embryology and Organogeny. A continuation of course 3a. The development of the organs of the vertebrate body. Laboratory studies of vertebrate embryos, text-book assignments, and seminar. Elective for those who have taken course 3a. Limited to ten. Mr. Bissonnette

I & II (Mon., Wed., Fri., 9:25-11:10) Trinity Term

4a Genetics. The genetics and variations of plants and animals, including man; family histories; eugenics; with their cytological, experimental, and statistical bases. Breeding experiments with the Fruit Fly, *Drosophila*, etc. Elective for those who have taken course 1 or A. Mr. Burger

X or hours to be arranged. Christmas term

4b Endocrinology. Study of structure and functions of the endocrine glands and their hormones, interrelations and general effects on organisms. Mr. Burger

X or hours to be arranged. Trinity term

5b Invertebrate Zoölogy. A study of the classification, morphology, physiology, and life histories of selected types of invertebrate animals, including forms of interest from the point of view of pre-medical education. Lectures, laboratory, and museum work. Elective for those who have passed course 1 with a grade of 70 or better. Mr. Burger and Mr. Bissonnette

Hours to be arranged. Trinity Term

6 Microscopical Technique. Half course. Preparation of embryological materials; theory and practice of microscopical technique; standard methods of fixation, embedding, section cutting, staining, and mounting. Laboratory work with necessary lectures. Elective for those who have taken course 1. Limited to eight. Mr. Bissonnette or Mr. Burger

Hours to be arranged. One or two days per week only, as needed.

Biological seminar. Presentation of papers bearing on current biological problems, and summaries. Voluntary. Mr. Bissonnette and Mr. Burger

## Chemistry

PROFESSOR KRIEBLE, ASSOCIATE PROFESSOR SMITH, DR. LOTHROP,  
DR. MASON, AND DR. STARR

1 General Experimental Chemistry. Elective for students in all classes not receiving credit for chemistry on admission. Mr. Kriebel and Mr. Lothrop. 8 semester hours credit

XII & XIII (Lectures, Mon., Fri., 8:30; laboratory, Tues., 2:00-3:45; quiz, Thurs., 2:00)

1-2 Advanced General Chemistry. Two lectures and one period of laboratory work. Elective for those receiving credit for chemistry on admission.\* Mr. Starr and Mr. Mason

X & XI (Tues., Thurs., Sat., 11:15-1:00)

2 Theoretical Chemistry and Qualitative Analysis. Two lectures with assigned reading and two laboratory periods. Elective for those receiving credit for chemistry on admission and who pass a placement examination,\* and for those who have passed Chemistry 1 or 1-2 with a grade of 65 or better. Mr. Smith and Mr. Mason. 8 semester hours credit

X, XI & IV (Tues., Thurs., Sat., 11:15-1:00; Wed., 12:10)

3a Volumetric Quantitative Analysis. Practice in volumetric methods and calculations. Lectures and laboratory work. Elective for those who have passed course 2 with a grade of 65 or better. Mr. Smith and Mr. Starr

VII & VIII (Tues., Thurs., Sat., 8:30-10:15) Christmas Term

4 Gravimetric Quantitative Analysis. Practice in gravimetric procedures, combustion analysis of organic compounds, Kjeldahl nitrogen determinations, etc. Lectures and laboratory work. Elective for those who have passed course 3a with a grade of 70 or better. Mr. Smith

I & II (Mon., Wed., Fri., 9:25-11:10)

5b Selected Topics in Inorganic Chemistry. Properties of the boranes, silanes, and germanes. The chain compounds of nitrogen. Relationship between atomic structure and chemical properties. The application of the Bohr classification to prediction. Solvolysis and the coordinate covalent link. Reactions in non-aqueous inorganic solutions. Elective in 1940-1941 and in alternate years for Juniors and Seniors who have passed course 2. Mr. Starr

VIII (Tues., Thurs., Sat., 9:30)

6 Organic Chemistry. Elective for those who have a grade of 70 or better in their previous course. Mr. Krieble and Mr. Lothrop

V & VI (Lectures, Mon., Fri., 2:00; laboratory, Wed., 2:00-5:00)

7a Biological Chemistry. The organic chemistry of biological substances including fats, proteins, carbohydrates, hormones, and vitamins. Lec-

\* Each fall before the opening of college a placement examination is held to determine which of the candidates are prepared to enter Chemistry 2. Students taking Chemistry 2 in the freshman year may save a year of college work in chemistry.

tures and laboratory work. Elective for those who have passed course 6 with a grade of 70 or better. Mr. Krieble

VII & VIII (Tues., Thurs., Sat., 8:30-10:15) Christmas Term

8 Advanced Organic Chemistry. An extension of course 6 to include important synthetical methods, the use of chemical literature, application of physical methods to the study of organic compounds, the theory of valence, organo-metallic compounds, the structure theory, isomerism, molecular rearrangements, and other similar topics. Lectures and coordinated laboratory work. Elective in 1940-1941 and alternate years for those who have passed course 6 with grade of 70 or better. Mr. Lothrop

V & VI (Mon., Wed., Fri., 2:00-3:45)

9 Qualitative and Quantitative Organic Analysis. A study of systematic methods for the qualitative identification of organic compounds, including treatment of both individual compounds and mixtures. The quantitative determination, by semi-micro methods, of carbon-hydrogen, nitrogen, halogens, and sulfur. Laboratory, conferences, and discussions. Elective in 1941-1942 and alternate years for those who have passed course 6 with a grade of 70 or better. Mr. Lothrop

V & VI (Mon., Wed., Fri., 2:00-3:45)

10b Introduction to Physical Chemistry. A study of the laws governing chemical phenomena. The kinetic theory of gases, the liquid state and solutions, the first law of thermodynamics, equilibria in chemical systems, solutions of electrolytes, and the kinetics of chemical reactions. Elective for those who have passed course 3a with a grade of 65 or better. Mr. Mason

VII & VIII (Tues., Thurs., Sat., 8:30-10:15) Trinity Term

11 Physical Chemistry. A more intensive study of physical chemical principles. Atomic and molecular structures; the first and second laws of thermodynamics; the gaseous, liquid, and solid states; homogeneous and heterogeneous equilibria; reaction kinetics and catalysis; and electrochemistry. Elective for those who have passed course 10b with a grade of 70 or better. Mr. Mason. 8 semester hours credit

XII & XIII (Mon., Fri., 8:30; Tues., Thurs., 2:00-3:45)

12 Advanced Physical Chemistry. Topics in Chemical Physics investigated from a mathematical and physical point of view, with emphasis upon numerical computation from data of the modern literature. These topics

13b Philosophy of the State. Elective for those who have taken one course in Philosophy. Mr. Means

I (Mon., Wed., Fri., 9:25) Trinity Term

15 History of Philosophy. Ancient and Mediaeval Philosophy: Christmas Term. Modern Philosophy: Trinity Term. Elective for those who have taken Philosophy 1, 2, or 4 with a grade of 75 or better. Mr. Costello

V (Mon., Wed., Fri., 2:00)

16 History of Greek Philosophy. Elective in 1941-1942 for those who have taken one course in Philosophy. Mr. Means

II (Mon., Wed., Fri., 10:20)

### Psychology

\*1 General Psychology. Elective for Sophomores, Juniors, and Seniors. Mr. Hutt and Mr. Altmaier

Section A, IV (Mon., Wed., Fri., 12:10); Section B, XI (Tues., Thurs., Sat., 12:10)

5 Experimental Psychology. This is a laboratory course and counts as a Laboratory Science for Arts students or as a Science for others.

Limited to ten. Elective for Sophomores, Juniors, and Seniors who have received a grade of 70 or better in Psychology 1 or 9b. Mr. Hutt

XII, XIII (Tues., Thurs., 2:00-4:00, and one hour to be arranged)

6a Individual Mental Deviations. Elective for those who have received a grade of 70 or better in Psychology 1 or 9b. Mr. Hutt

VII (Tues., Thurs., Sat., 8:30) Christmas Term

6b Individual Mental Development. Elective for those who have received a grade of 70 or better in Philosophy 1 or Philosophy 9b. Mr. Altmaier

VII (Tues., Thurs., Sat., 8:30) Trinity Term

7a Anthropology. Elective for Sophomores, Juniors, and Seniors. Mr. Hutt

II (Mon., Wed., Fri., 10:20) Christmas Term

7b Social Psychology. Elective for Sophomores, Juniors, and Seniors. Mr. Hutt

II (Mon., Wed., Fri., 10:20) Trinity Term

9a Learning Process. Elective for those who have taken Psychology 1. Mr. Altmaier

XI (Tues., Thurs., Sat., 12:10) Christmas Term

9b Advanced General Psychology. Elective for those who have taken Psychology 1.

Omitted in 1940-41 and in 1941-1942.

\* Either Psychology 1 or Philosophy 2 or 4 may be offered in satisfaction of the degree requirement in Philosophy.

### Education\*

20 Practice Teaching. Elective for Seniors. Mr. Buell

Hours to be arranged.

21a History of Education. Elective for Juniors and Seniors. Mr. Buell

III (Mon., Wed., Fri., 11:15) Christmas Term

22b Educational Tests and Measurements. Elective for Juniors and Seniors. Mr. Buell

III (Mon., Wed., Fri., 11:15) Trinity Term

\* Courses in Education do not count towards fulfilling the Philosophy group requirements.

## Physical Education

DIRECTOR OOSTING, ASSISTANT DIRECTOR CLARKE, ASSISTANT  
DIRECTOR JESSEE, MR. MC CLOUD, AND MR. ERICKSON

1 Required for Freshmen. Autumn: election of football, touch football, soccer, or cross-country running. Winter: class work in the following—basketball, volleyball, swimming, life saving, squash racquets, wrestling, tumbling, apparatus, and group games. Spring: election of track, baseball, playground ball, or tennis. Regulation uniform is required.

2 Required for Sophomores and Juniors. Election from the following list of activities depending on the season of the year: football, touch football, soccer, track, cross-country, basketball, squash racquets, wrestling, swimming, playground ball, rowing, tennis, and golf. Regulation uniform required for all class work. Periods arranged in the morning.

3 Intercollegiate Athletics. Members of the varsity or freshmen squads are given credit for work in physical education during the particular season of the sport. The recognized varsity sports are: football, soccer, cross-country, basketball, swimming, track, baseball, and tennis. Informal intercollegiate contests are also planned in squash racquets, crew golf and wrestling.

4 Intramural Athletics. Twelve teams engage in intramural contests in the following sports: water baseball, basketball, swimming, squash racquets, tennis, track, and playground ball. These activities are controlled by the Physical Education Department but no credit is given for physical education attendance.

## Physics

PROFESSOR PERKINS, ASSOCIATE PROFESSOR WADLUND, AND  
ASSISTANT PROFESSOR DOOLITTLE

A. Elementary Physics. A course covering mechanics, heat, electricity, magnetism, sound, and light. Elective for students not receiving credit for Physics on admission. Does not admit to advanced courses in Physics, except Physics 3. Mr. Doolittle

VII & VIII (Tues., 8:30-10:15; Thurs., Sat., 9:25) Omitted in 1940-1941

1 General Physics somewhat more advanced than Physics A, and preparatory to further study of this and other sciences. This course is

designed to meet the minimum requirements of the medical schools, and should be selected by pre-medical students. Three classroom periods and one laboratory period. Elective for all classes. Mr. Perkins, Mr. Wadlund, and Mr. Doolittle. 8 semester hours credit

Section A, III, X & XI (Mon., Wed., Fri., 11:15; Tues., 11:15-1:00); Section B, IV, X & XI (Mon., Wed., Fri., 12:10; Thurs., 11:15-1:00); Section C, XII, III & IV (Mon., 8:30; Tues., Thurs., 2:00; Fri., 11:15-1:00); Section D, XIII, III & IV (Mon., 11:15-1:00; Tues., Thurs., 2:55; Fri., 8:30)

2 Light and Electricity. An intermediate course mainly in light and electricity covering material not treated in Physics 1, as well as more advanced laboratory work. Two classroom periods and one laboratory period. Elective for those who have taken course 1. Mr. Perkins and Mr. Wadlund

Section A, V & VI (Mon., 2:00-3:45; Wed., Fri., 2:55); Section B, (Mon., Wed., 2:55; Fri., 2:00-3:45)

3 Analytical Mechanics. The course is based upon a single principle from which all other laws and principles of elementary mechanics are deduced. These laws and principles are applied to the solution of a large number of physical and engineering problems, such as: the equilibrium of particles, rigid bodies, and flexible cables; motion of a particle and of a rigid body, and problems involving work, energy, power, impulse, and momentum. Elective for those who have taken course A or 1, and who have taken Mathematics 2. Mr. Dadourian

X (Tues., Thurs., Sat., 11:15)

4a Electricity and Magnetism. Advanced theory of electrical measurements and laboratory practice. Two lecture periods and one laboratory period of two hours. Elective for those who have taken course 2 and who have taken, or are taking, Mathematics 2. Mr. Perkins

XII & XIII (Mon., Fri., 8:30; Thurs., 2:00-3:45) Christmas Term

4b Applied Electricity. Two lectures a week on the theory of direct and alternating current generators and motors, and of transformers; one period of two hours of laboratory work, intended to make the student familiar with the operation and testing of electrical machinery. Mr. Perkins

XII & XIII (Mon., Fri., 8:30; Thurs., 2:00-3:45) Trinity Term

5ab Introduction to Theoretical Physics. The elements of thermodynamics, electro-dynamics, and electro-magnetic theory of light; the

theory of relativity. Vector analysis is introduced as needed. Elective in 1941-1942 and alternate years for those who have taken, or are taking, course 3, or who obtain the permission of the instructor. Mr. Wadlund

II (Mon., Wed., Fri., 10:20)

6a Recent Developments in Physics. An elementary review of some phases of recent developments in Physics, such as: the passage of electricity through gases, X-rays, radioactivity, the electron theory, and atomic structure. Elective for those who have taken course 2. Mr. Wadlund

I (Mon., Wed., Fri., 9:25) Christmas Term. Omitted in 1941-1942.

6b Advanced Laboratory Physics. Experiments based upon the ground covered in the first term, as well as advanced experiments in general physics not taken up in the other courses. One lecture and two periods of two hours each of laboratory work. Elective for those who have taken course 6a. Mr. Wadlund

I & II (Mon., 9:25; Wed., Fri., 9:25-11:10) Trinity Term. Omitted in 1941-1942.

7b Electronics. The elementary theory of electron tubes with applications to various electrical circuits including radio. Two lecture periods and one laboratory period of two hours. Elective for those who have taken course 4a or 6b. Mr. Doolittle

VI (Mon., Fri., 2:55. Laboratory hours to be arranged.) Does not conflict with Chemistry 6 or 9. Trinity Term

8 Radio. An elementary course in radio engineering intended to give the student an understanding of the function and behavior of the basic circuits and circuit elements used in radio receiving and broadcasting. Two lectures and one laboratory period. Elective for those who have had Physics 1. Mr. Doolittle

III (Mon., Wed., 11:15. Laboratory hours to be arranged.)

## Physiology and Hygiene

PROFESSOR SWAN

### Physiology

1 Elementary Physiology. An elementary study of the human body. Lectures, recitations, and demonstrations. Elective for Sophomores, Juniors, and Seniors.

III (Mon., Wed., Fri., 11:15)

2 Human Physiology, advanced course: text-book, lectures, and laboratory demonstrations. Elective for those who have taken Chemistry 1, Physics 1, and Physiology 1 or Biology 1.

XI (Tues., Thurs., Sat., 12:10)

### Hygiene

1b A study of general and of personal hygiene. Lectures, recitations, and demonstrations. Elective for all classes.

X (Tues., Thurs., Sat., 11:15) Trinity Term

### Microbiology

Physiology 4 Elementary Microbiology. The morphology, culture, and physiology of micro-organisms, including bacteria, yeasts, moulds: Christmas Term. Applied Microbiology. A study of micro-organisms of economic importance, with a consideration of those found in the air, water, soil, milk; and the diseases of animals and man: Trinity Term. Elective for those who have taken Biology 1 and Chemistry 1. 8 semester hours credit

XII & XIII (Mon., Fri., 8:30; Tues., Thurs., 2:00-3:45)

### Reading Course

Reading and reports on individually chosen classics of world literatures, science, and art. An elective for Juniors and Seniors whose work has averaged 80 or better. Mr. Adams, Mr. Allen, and Mr. Costello. Cannot be counted for required work in any department.

No class meetings

### Religion

1b An historical approach to religion as a type of human experience. Elective for Sophomores, Juniors, and Seniors. Mr. Hutt and others

IX (Tues., Thurs., Sat., 10:20) Trinity Term

## Romance Languages

PROFESSOR SCOTT, ASSOCIATE PROFESSOR NAYLOR, AND

MR. WENDELL

### French

1 Beginners' Course; stressing reading, and the elementary grammatical principles necessary for accurate comprehension. Elective for all classes. Mr. Scott and Mr. Naylor

VI (Mon., Wed., Fri., 2:55).

2 Selections from Modern French Writers, and practice in writing and speaking French. Elective for those who have taken course 1, or two years of high school French. Mr. Scott and Mr. Naylor

Section A, IV (Mon., Wed., Fri., 12:10); Sections B and C, IX (Tues., Thurs., Sat., 10:20); Section D, XI (Tues., Thurs., Sat., 12:10)

3 Survey of French Literature; from its beginnings to the present day, studied in the masterpieces of each century. Elective for those who have taken course 2, or three years of high school French. Mr. Wendell

VI (Mon., Wed., Fri., 2:55)

4 French Literature of the Nineteenth Century. A study of the origin and development of the principal literary movements of the century. Romanticism, Realism, Naturalism, as reflected in the works of representative poets and prose writers. Elective for those who have taken course 3. Mr. Scott

VIII (Tues., Thurs., Sat., 9:25)

5 French Literature of the Seventeenth Century. Elective in 1940-1941 and in alternate years for those who have taken course 4. Mr. Wendell

II (Mon., Wed., Fri., 10:20)

6 French Literature of the Eighteenth Century. Elective in 1941-1942 for those who have taken course 4.

II (Mon., Wed., Fri., 10:20)

7 Elementary Conversation. The chief objective of this course is to develop conversational ability, stressing correct pronunciation and comprehension of the French language. The cultural and artistic contribution of France is presented by lectures and lantern slides. Elective for those who have taken course 2, or three years of high school French. French 3 and/or French 7 may be taken in the same year. Mr. Scott

X (Tues., Thurs., Sat., 11:15)

## Italian

1 Elementary Course, covering the essentials of grammar, stressing accurate pronunciation, and facility in reading. Elective in 1940-1941 and in alternate years for those who have taken French 1, or two years of high school French. Mr. Naylor

III (Mon., Wed., Fri., 11:15)

2 Survey of Italian History and Literature, with readings in modern Italian, as preparation for the intensive study during the second semester of Dante and his contemporaries. Elective in 1941-1942 for those who have taken course 1. Mr. Naylor

III (Mon., Wed., Fri., 11:15)

## Spanish

1 Beginners' Course with the primary object of acquiring facility in the reading of modern prose. Elective in 1941-42 for those who have taken French 1, or two years of high school French.

XI (Tues., Thurs., Sat., 12:10)

2 Spanish Literature of the Sixteenth and Seventeenth Centuries; the novel, the drama, and the ballad. Elective at discretion of the department for those who have taken course 1.

XI (Tues., Thurs., Sat., 12:10) Omitted in 1940-1941

Sociology (*see Psychology 7ab*)

## Honors Courses

Any Professor may recommend to the Faculty in the Trinity Term that certain designated Sophomores and Juniors have permission to study during the following year in his department as honor students. Only students with an average grade of eighty or better may be so recommended. Such students shall continue work in regular courses for the equivalent of at least three courses for their Junior year and at least two courses for their Senior year, devoting the rest of their time to individual study under the direc-

tion of the head of the department recommending them. At the end of April, in their Senior year, they shall present themselves for a general examination on the subject in which they have been doing their individual work. In no case shall this procedure operate to excuse a student from any of the courses required for the B.A. or B.S. degree. The privilege of working as an honor student may be withdrawn at any time by the Faculty or by the Professor concerned.

## The College Chapel

THE President is the Chaplain of the College, and is assisted in the conduct of the services in the Chapel by various members of the Faculty and students.

Services are held in the College Chapel every morning during the week, at half-past eight on Wednesdays, and at five minutes past eight on other days. On Sundays during term time there is a morning service at eleven, and a vesper service in the afternoon at five. Attendance at a certain amount of these week-day or Sunday services is required of all students in accordance with regulations prescribed by the Faculty. In addition, there are various special services held from time to time. There is Holy Communion service every Sunday morning at eight o'clock in the Chapel of the Perfect Friendship, and on Saints' Days in the Crypt Chapel at seven-fifteen. The different fraternities hold corporate communion services in the Chapel of the Perfect Friendship, usually on some special day during the college year. During Lent a group of undergraduates say the Compline Office in the Crypt Chapel at ten minutes past ten.

The College Chapel is open at all times during the day.

## The Library

THE Library occupies Williams Memorial, completed in 1914, erected in memory of Bishop John Williams with funds presented by the late J. Pierpont Morgan, LL.D. It is a modern fireproof library building with shelf space for 170,000 volumes, and a reading room with seats for one hundred readers. The ground floor of the east wing is occupied by the administrative offices.

The Library is open daily during term time from 8:30 a.m. to 5:40 p. m.; Sunday, from 2:00 to 4:45 p. m.; every evening (except Saturday) from 7:30 to 11:00 p. m.

The literary material used to supplement the instruction of the class-room and laboratory comprises (1) the best of the more recent works on the subjects taught, and (2) the most important of the authoritative and indispensable older books. To the first class belong over one hundred current periodicals and journals of learned societies. Substantial additions have recently been made in the modern literature of chemistry, economics, philosophy, history, psychology, physics, sanitary science, and engineering. The second class includes, in part, a good equipment for undergraduate needs in classical and other European lexicography, Greek and Latin epigraphy, modern European and English literature; the best editions of the complete works of many of the great astronomers, chemists, mathematicians, and physicists from the earliest times to the present; and an unusually full series of the public documents and state papers of the United States government from the formation of the Union to the present Congress.

The Reference Room contains 8,000 volumes placed on open shelves for free and unrestricted use. These have been carefully selected so as to facilitate the academic work of the students, and

to make readily accessible for purposes of general culture a representative body of the best literature on all subjects. The system of classification and the other details of book arrangement in this room have been entirely subordinated to these higher aims. The Librarian and his staff aid the students in their use of the books, and assist them in other ways.

Many single works of great value and interest are contained in the collection. Among them are: two Greek manuscripts of the twelfth century, several illuminated Latin Books of Hours of the fourteenth and fifteenth centuries, fine examples of books printed before the year 1500 (Incunabula), rare mathematical and medical works of the sixteenth, seventeenth, and eighteenth centuries, an exceptionally fine copy of Audubon's great work, "Birds of America," and first editions of the books of many English and American writers whose works form a permanent part of literature.

The library now numbers over 135,000 volumes and 60,000 pamphlets. The funds, from which its income for the purchase of books is derived, are the following:

THE BURGESS FUND, founded in 1843, by a gift of \$500 (now \$1,075) from the Rev. George Burgess of Hartford, afterward Bishop of Maine.

THE ELTON FUND, founded in 1854, by a gift of \$5,000 (recently increased by his son John P. Elton to \$10,000) from John P. Elton, Esq., of Waterbury.

THE SHEFFIELD FUND, founded in 1856 by a gift of \$5,000 (now \$9,225) from Joseph E. Sheffield, Esq., of New Haven.

THE PETERS FUND, founded in 1858 by a legacy of \$2,000 (now \$2,534) from the Hon. John S. Peters, LL.D., of Hebron.

THE THOMAS RUGGLES PYNCHON ALUMNI LIBRARY FUND, founded in 1859 by subscriptions from the Alumni, and now amounting to about \$5,460.

THE ATHENAEUM FUND, founded in 1870 by a gift of \$300 (now \$939) from the Athenaeum Literary Society.

THE NORTHAM FUND, founded in 1887 by a legacy of \$12,000 from Charles H. Northam, Esq., of Hartford.

THE SAMUEL HART FUND of \$2,500, founded in 1901 by Alumni in honor of the late Rev. Samuel Hart, D.D., D.Can.L., LL.D., of the Class of 1866, formerly Professor of the Latin Language and Literature.

THE J. EWING MEARS LIBRARY FOUNDATION ON SANITARY SCIENCE, established October 17, 1904, by Dr. J. Ewing Mears, of the class of 1858.

THE THOMAS BALCH FUND of \$3,000, (now \$3,131) founded in 1918, the income to be used primarily for the purchase of books relating to International Law and kindred subjects.

THE CHARLES LATHROP PACK FUND, founded in 1921 by a gift of \$1,000 from Charles Lathrop Pack, LL.D., and later increased by him by \$2,000 (now \$3,811). The income is to be used for the purchase of books relating to American History.

THE MARY FRANCES REARDEN FUND, founded in 1934 by a legacy of \$5,000 (now \$5,045) from Miss Mary Frances Rearden, of Hartford, the income to be used for library purposes.

THE BECKWITH LIBRARY FUND, of \$30,000, (now \$30,139) founded in 1938 by request of the Rev. Isbon Thaddeus Beckwith, D.D.

THE GEORGE WATSON COLE MEMORIAL LIBRARY FUND of \$21,120, founded in 1940 from trust of George Watson Cole, L.H.D., Honorarius 1920, the income to be expended in the purchase of books on bibliography, biography, literary criticism and general works on American literature.

Other special funds are:

THE JACOCKS LIBRARY FUND, established in 1888 by a legacy of \$500 from the Rev. James G. Jacocks, of the class of 1847. So much of the income of this fund, amounting to about \$20 annually, as may be necessary is expended under the direction of the Librarian in the purchase of textbooks, which are lent to students of very limited means.

THE ROBERT HITCHCOCK CANFIELD LIBRARY FUND, founded April 29, 1905, by a gift of \$2,000 (now \$2,695) from Mrs. R. H. Canfield, of Hartford, Connecticut, in memory of her husband. The income of this fund is to be used exclusively for necessary binding in the College Library.

A PERIODICAL FUND, established by the Trinity College Undergraduate Senate of 1933—\$500.

THE J. PIERPONT MORGAN FUND, founded in 1910 by a gift of \$100,000 from J. Pierpont Morgan, Esq., of New York; his son, J. Pierpont Morgan, Esq., made in 1917 a further gift of \$150,000. The income of this second gift is to be used primarily for the administration and maintenance of the Library.

Title XV, Section 2, of the Statutes of Trinity College provides that "A book shall be kept by the Librarian, in which shall be inscribed the names of all contributors to the Library, together with a list of the books which they have contributed. And if any person shall make a donation of books to the value of five hundred dollars, his name shall be conspicuously inscribed in some appropriate place in the Library."

Every book given to the Library is duly acknowledged, inscribed with the name of the donor, and recorded in the Annual Report of the Librarian. The Librarian will be glad to inform Alumni and friends of the College of the departments in which their gifts will be most effective in meeting pressing needs.

Books may be taken by the following persons: Members of the Corporation, benefactors of the College, its officers, graduates, and undergraduates. The privileges of the Library are also extended to the citizens of Hartford, and to other persons, as the President may approve.

### Other Library Facilities

There are also available and accessible to the students the six collections of books named below. These comprise, with the College Library, over 900,000 volumes, exclusive of pamphlets and manuscripts.

**THE HARTFORD PUBLIC LIBRARY.** All students of the College are allowed, upon special conditions prescribed by the authorities, to make use of the well-selected collections in the Hartford Public Library, which is located on the first floor of the Wadsworth Athenaeum, and consists of over 210,000 volumes. It is open on week days from 9 a.m. to 9 p.m. The librarian prepares lists of references on current topics, which are of considerable service to the students. The current numbers of over 250 periodicals are on file in the Reading Room.

**THE WATKINSON LIBRARY OF REFERENCE.** The collection of the Watkinson Library numbering over 118,000 volumes is entirely free for consultation by all students of the College. It is located on the second floor of the Wadsworth Athenaeum, and is open on week days from 9:30 a.m. to 5:30 p.m. It is especially rich in works on the Fine Arts, Romance Languages, English Philology and Literature, English and American History, and in sets of the Transactions and Proceedings of Foreign Scientific and Learned Societies.

**LIBRARY OF THE CONNECTICUT HISTORICAL SOCIETY.** Through the courtesy of the Connecticut Historical Society, its Library and Museum, located in the Wadsworth Athenaeum, are accessible to the public free of charge. The library contains over 50,000 vol-

umes, 50,000 unbound pamphlets, and 75,000 manuscripts. It is open on week days from 9:30 a.m. to 5:30 p.m. It offers exceptional facilities for thorough research, not only in all subjects relating to the history of Connecticut and New England, but also in many departments of general American history.

**CONNECTICUT STATE LIBRARY.** This collection of about 265,000 volumes, 600,000 pamphlets, and over 1,600,000 manuscripts relating to the early history of Connecticut is open to the public for reference use from 9 a.m. to 5 p.m., except on Sundays. It comprises a Legislative Reference Department, a Department of Archives and History, and the Supreme Court Law Library. The last makes accessible a commendably complete collection of the statute and case law of English-speaking people, and the more recent codes of many of the other countries. Students who intend to take up the study of law may profitably avail themselves of its resources.

**HARTFORD BAR LIBRARY ASSOCIATION.** A reference law library of over 18,500 volumes, together with some 2,000 records and pamphlets in the County Building. It comprises also a small circulating department, from which books may be borrowed by any member of the Hartford County Bar, or by any one else on written introduction by a member.

**THE CASE MEMORIAL LIBRARY.** The Case Memorial Library of the Hartford Seminary Foundation, at Elizabeth Street and Girard Avenue, is equalled in its special field by few, if any, libraries in this country. It numbers over 138,000 volumes and 65,000 pamphlets. It is open every week day from 8 a.m. to 9:30 p.m., and students may have free use of its books both for consultation and withdrawal. It is especially rich in collections of documents relating to Church history; in works dealing with textual criticism; in the literature of the Reformation and in the literature of modern missions; in Patristics, Lutherana, Orientalia, and in English Hymnology.

## The Union

The Union, operating under the control of the College Senate, maintains a college store in Seabury Hall where stationery and miscellaneous articles may be purchased by students. In connection with the store a large recreation room is kept open for the benefit of students between hours of classes or for students who live off the campus. For these last there are additional facilities for quiet study provided in Seabury Hall, next to the Union, where students may work without interruption.

## Fraternities

The fraternities with chapters at the College are the following: Alpha Delta Phi, Delta Psi, Delta Kappa Epsilon, Psi Upsilon, Alpha Chi Rho, Delta Phi, and Sigma Nu, with Alpha Tau Kappa, the local fraternity.

In addition to these, the Honor Societies of Phi Beta Kappa (*see page 101*) and Pi Gamma Mu have chapters at the College. The Pi Gamma Mu Fraternity is a Social Science Honor Society with chapters at various colleges and universities throughout the United States. The Trinity chapter is known as the Connecticut Alpha.

## Laboratories

### The Jarvis Laboratory

THE JARVIS Laboratory, devoted to the Department of Physics, is in a building at the south end of the campus, the gift of the late George A. Jarvis, Esq.

The department of Physics has a large laboratory for work in the elementary courses, and several smaller laboratories adapted and devoted to advanced work of a special character. In addition to the annual appropriation of the Corporation for its development, the Department enjoys the income of the Cheesman Fund, given by the late Dr. T. Matlack Cheesman in memory of his son, Professor Louis M. Cheesman, formerly Professor of Physics in Trinity College.

### The Chemical Laboratory

The new Chemical Laboratory, given by an anonymous donor, was completed in October, 1936. It is built of brownstone and forms part of the main quadrangle, holding the same position at the southeast corner as the Chapel does at the northeast corner.

The laboratory offers every facility for the study of chemistry. There are four large, well lighted and ventilated, completely equipped rooms for the study of general, organic, biological, and physical chemistry, qualitative and quantitative analysis. There are also a number of rooms for special purposes as well as a series of private offices and laboratories for research. All the books and journals pertaining to chemistry owned by the College are assembled in a special room known as the Riggs Memorial Chemical Library in tribute to Robert B. Riggs, Scovill Professor of Chemistry from 1887 to 1920. The building contains a number of classrooms,

experimental lecture rooms and an auditorium, which will seat the college body of five hundred. The auditorium is equipped to show chemical experiments and motion pictures. Some of the classrooms are used by other departments of the College.

### Boardman Hall

Boardman Hall is situated at the south end of the campus. Its three floors are devoted to the laboratories and classrooms of the Departments of Biology, Geology, Mathematics, Civil Engineering, Drawing, Physiology, and Psychology.

**BIOLOGY.** The Laboratories for General Biology, Zoölogy, Embryology, and Microbiology have a comprehensive equipment, including charts, models, projection lantern, compound and dissecting microscopes, lantern slides, microscopical preparations, and demonstration material for class use. The laboratory for advanced courses is well equipped with apparatus for embryological and bacteriological work.

**GEOLOGY.** The equipment for instruction in geology and organic evolution includes, in addition to the exhibition collections in the museum, numerous specimens of rocks, minerals, and fossils suitable for handling in class work. Lecture work is carried on with the aid of lantern slides, models, demonstration material, and field trips. Laboratory exercises are conducted in the use of maps and models, in the analysis of minerals and rocks, and in field work to which the region about Hartford yields so much of interest.

**PSYCHOLOGY.** The Psychological Laboratory occupies rooms in Boardman Hall, and is adequately equipped for purposes of instruction, and for research in certain limited directions.

### The Museum of Natural History

The College Museum, located in Boardman Hall, has collections of wide interest and usefulness to the instructors and stu-

dents. The first floor is given to the vertebrates, the second to the invertebrate animals and plants, and on the third floor are found the fossils, minerals, and rock specimens.

On the first floor is an extensive collection of birds, reptiles, and mammals, well represented by skeletons and mounted specimens. While numerous Ward models serve largely to show the pre-historical animals, the museum boasts many fossil specimens, collected and prepared by members of the museum staff, some of which are almost unique; of particular interest is a series representing the evolution of the horse. On the first floor also are the Collins and Seinsoth Collections of local birds and the Trowbridge Collection of birds' eggs and nests; a gift by Mrs. Henry Ferguson of emu skins and other contributions of the sort make the bird collection unusually complete.

Representative groups of insects, a variety of marine animals from the shores of New England, the Bahama Islands, and the Pacific coast, together with an herbarium of some two thousand specimens of Connecticut plants, are exhibited on the second floor. The plants were prepared by the Horticultural Society of the State and presented to the Museum. The local flora is further represented by the Lorenz Collections of the New England ferns, mosses and liverworts.

Of special interest and value on the third floor is the Caswell Collection of 4,000 mineral specimens that illustrate many crystal types including rare species. A temporary exhibit of Caswell minerals has been arranged in a case on the first floor.

## Physical Education and Athletic Facilities

THE gymnasium, located at the north end of the campus, contains in addition to locker and shower facilities, Physical Education offices, Trainer's Room, and two floors suitable for the playing of basketball, volley ball, handball, and badminton. The lower of these two floors is equipped with gymnasium apparatus and also provides areas for boxing, wrestling, and fencing.

To the east of the gymnasium is an enclosed field with adequate facilities for varsity football, baseball, and track. Adjacent to this field are two additional fields used for varsity soccer and as practice fields for other sports in season. There are twelve tennis courts located on the south end of the campus.

In the fall of 1929, the College opened a new gymnasium unit known as the Trowbridge Memorial Building. This building contains a seventy-five by thirty foot swimming pool and a battery of six squash racquets courts.

### Physical Education

Freshmen, Sophomores, and Juniors are required to report for Physical Education throughout the college year. A regulation uniform is required. Juniors who have completed all group Physical Education requirements and who have shown reasonable physical proficiency may be excused from further attendance.

The Physical Education program is divided into three groups: required physical education, intercollegiate athletics, and intramural athletics. The last two are on an elective basis. Credit for physical education attendance is given for intercollegiate but not for intramural athletics.

The program in athletics and physical education is under the supervision of the Director of Physical Education to whom all students are required to report on entering college. Early in the fall a thorough physical examination is given by a large group of local doctors who are specialists in their field. This examination is organized by the college medical director and in some cases special exercises are prescribed for students. The Medical Director and his assistant also have medical superintendence of all candidates for athletic teams, of the health of all students, and of the hygienic condition of all college buildings.

## Honors at Graduation

THE high excellence of a student in the general work of his college course, or in the work of individual departments, will be recognized at his graduation by the award to him by the Faculty of honor rank in general scholarship, or in certain special subjects in which the student shall have shown himself proficient.

The two members of the Senior Class having the highest standing are designated, respectively, Valedictorian and Salutatorian.

Honors awarded at graduation, whether in general scholarship or in special subjects, will be noted on the commencement programme of the year in which they are awarded, and in the next issue of the College Catalogue.

The student attaining the grade of ninety or better in all the courses required for his degree is graduated with the title of OPTIMUS.

**HONORS IN GENERAL SCHOLARSHIP.** The distinction of honor rank in general scholarship will be awarded at graduation to such students as shall have attained a grade not below eighty in each of not less than twenty full courses (of three hours each per week for the year), or their equivalent, and shall have attained a grade of ninety in not less than sixteen full courses or their equivalent. Of students who have been in residence less than four years a proportionate attainment will be required.

In order to be awarded Honors in any special subject, the candidate must have passed with credit in all the courses required for Honors in that subject, and also in such special examinations as may be prescribed. He may also be required to present a satisfactory thesis. Students are advised to consult the departmental heads concerning specific requirements.

The fields in which Honors may be awarded are: Biological Sciences, Chemistry, Civil Engineering. The Classics, Economics, English, Fine Arts, French, German, Greek, History, Latin, Mathematics, Music, Philosophy, Psychology, Physics, and Romance Languages.

In any of these fields Honors shall be awarded for excellence in four courses (in Fine Arts, three courses and two courses in Music) designated by the authorities of the departments concerned, upon confirmation, by the Faculty, of their recommendations.

### Phi Beta Kappa

The Phi Beta Kappa Fraternity, founded at the College of William and Mary, December 5, 1776, is an honorary society, membership in which is conditioned upon high scholastic standing. The Trinity Chapter, known as the Beta of Connecticut, was chartered by the Yale Chapter, the Connecticut Alpha, June 16, 1845, and is the eighth in order of foundation.

The Charter stipulates that persons elected to membership in the Beta of Connecticut shall be men of honor, probity, and learning. To satisfy the scholastic requirements, a student must have attained at least the equivalent of Grade A (the highest grade of excellence) in at least ten courses, and Grade B (the second highest grade) in ten additional courses. Election to Phi Beta Kappa has always been regarded as a mark of high distinction in scholarship.

## The George Sheldon McCook Trophy

The George Sheldon McCook Trophy, the gift of Professor and Mrs. John James McCook in 1902, is awarded annually by the Athletic Association of the College, through the Committee of the Faculty on Athletics and College Organizations and the Captains and Managers of the teams, to a student in the Senior Class, who must be in good scholastic standing, on the basis of distinction in athletics. In determining the award, diligence and conscientiousness in the observance of all rules of drill, training, and discipline are taken into account, as well as manliness, courtesy, self-control, uprightness, and honor at all times, especially in athletic sports and contests. The name of the student receiving the award is attached to the trophy on a silver bar bearing his name and class date. He receives as his permanent property a bronze medal bearing among other things his name and class date. This trophy is the athletic distinction most coveted in the College. In 1940 the trophy was awarded to Joseph Leroy Rihl.

## The Scholarship Cup

A silver cup is awarded annually by the Hartford Alumni Association to the Chapter of a Fraternity attaining the highest rank in scholarship. The award is made to the Chapter receiving the highest percentage of marks higher than eighty. The name of the Chapter receiving the award is engraved on the Cup. In 1940 the Cup was won by the Delta Chi Chapter of Sigma Nu.

## Prizes, Fellowships, and Scholarships

### The Tuttle Prize

THE Tuttle Prize, of \$45, was founded in 1859 by the late Miles A. Tuttle, Esq., of Hartford. It is awarded to the member of the Senior Class who shall write the best essay on "Definitions for Democracy." The essays must be submitted to the President on or before the first day of May, 1941. No award will be made except for excellent work.

### The Goodwin Greek Prizes

Two prizes, one of \$90 and one of \$60, founded in 1884, by the late Mrs. James Goodwin, of Hartford, are offered to students in Greek who shall have attained the highest grade of excellence in the courses taken, and in a special examination; a student who has received a prize shall not again be eligible to compete for the same prize. The examination, which will be held on the third day of May, 1941, will be designed to test the student's general knowledge of Greek, including composition and sight translation, such as he may properly be expected to acquire from his reading in connection with these courses. Students intending to compete for these prizes should elect Greek 8a also. No prize will be awarded unless the work offered is excellent.

It is recommended that all essays submitted in competition be typewritten, and it is further recommended that they do not exceed five thousand words.

The names of winners of prizes appear on page 114.

## The Ferguson Prizes in History and Political Science

Two prizes, one of \$75 and one of \$50, founded in 1890 by the late Professor Henry Ferguson, LL.D., of the class of 1868, are offered to the Seniors and to the Juniors for the best theses upon the topic, "Anglo-American Relations, 1920-1940". The theses must be typewritten. They must be submitted to the Professor of History on or before the first day of May, 1941. No prize will be awarded unless the work offered is excellent.

## The Alumni Prizes in English Composition

Three Prizes, of \$60, \$40, and \$25 respectively, from the income of a fund contributed by the Alumni, will be awarded to the students who shall present the best essays on subjects to be selected in consultation with the instructors in the Department of English. The essays must be submitted to the Professor of English Literature on or before the first day of May. Essays prepared in any regular course of study may be offered in competition, provided that such compositions are recommended for this contest by the instructor in whose department they were written.

## The Frank W. Whitlock Prizes

Two prizes, of \$30 and \$20 respectively, were founded by a legacy of Mrs. Lucy C. Whitlock, of Great Barrington, Massachusetts, and by her direction bear the name of her son, who was a graduate in the class of 1870. Students selected by a preliminary trial will deliver their themes in public in competition for the Whitlock Prizes. In determining the award, regard will be had both to composition and to delivery.

## The F. A. Brown Prize

A prize was founded in 1897 by Mrs. Martha W. Brown of Hartford in memory of her husband to be awarded to that mem-

ber of the Senior Class who shall write and pronounce an English oration in the best manner. Two prizes are now awarded in annual competition, a first prize of \$100 and a second prize of \$25.

### The Mears Prize

Two prizes of twenty-five dollars each were established under the will of Dr. J. Ewing Mears, of the class of 1858. They are awarded by the Faculty on the recommendation of the head of the Department of Physical Education.

The first prize is to be awarded to that member of the Senior Class who shall write the best essay on "The National Need for Physical Fitness."

The second prize will be awarded to that member of the Junior Class who shall write the best essay on "The Place of Physical Education in the College Curriculum."

No student will be considered eligible to compete for these prizes who has not completed satisfactorily the requirements of the College in Physical Education, and no prize will be awarded in any class unless two or more members are competing. The essays must be submitted to the President on or before the first day of May, 1941.

### The Phi Gamma Delta Prizes in Mathematics

Three prizes are offered to Freshmen who do excellent work in Mathematics: first prize \$60, second prize \$30, third prize \$20. These prizes are from the income of a fund established in 1923, and increased in 1931 by the Alumni authorities of what was formerly the local chapter of the fraternity of Phi Gamma Delta.

### The Van Zile Poetry Prize

The prize was established in memory of Edward Sims Van Zile, of the class of 1884. Mr. Van Zile himself gave the first

prize in 1931 which was awarded just before his death. Poems must be submitted to the Professor of English on or before the first day of May, 1941. The amount of the prize is \$50.

## Scholarships

The value of scholarships awarded annually amounts to \$40,000. College expenses are considerably reduced to holders of scholarships. They are assigned in accordance with the conditions indicated on *pages 107 to 113* of this Catalogue. They are of different values, and the income of each is credited to the holder on the Comptroller's books, to be applied toward the payment of college bills. Any surplus is paid in cash to the beneficiary.

For holders of those scholarships which remit the entire charges for tuition, the Comptroller's bills (exclusive of room rent) are reduced to \$150; and the necessary expenses of such students, including board and other personal items, need not exceed \$500 a year.

The Trustees have voted that all appointments to scholarships shall be made for one year, and that scholarships shall be forfeited for serious misconduct, or for serious deficiency in college work; they have ruled that no student who has been liable, during the year, to serious college censure shall be considered as a candidate for any competitive College Honor, Prize, or Scholarship.

## List of Fellowships and Scholarships

*For further information as to the conditions of Fellowships and Scholarships, or for further particulars in regard to them, application should be made to the President of the College.*

## Fellowships

### THE H. E. RUSSELL FELLOWSHIPS

These two Fellowships, endowed originally by a legacy of \$10,000 from Henry E. Russell, Esq., of New York, pay to the holders about \$500 each

annually. They are awarded in alternate years, by vote of the Faculty, to members of the graduating class who give evidence of superior ability and who engage to pursue an approved course of non-professional graduate study at Trinity College or at some American or foreign university approved by the Faculty. The incumbents hold the Fellowships for two years each.

#### THE MARY A. TERRY FELLOWSHIP

This fellowship, endowed by a legacy from Miss Mary A. Terry, of Hartford, yields an annual income of about \$1,000. It is awarded annually by the President, upon the recommendation of the Faculty, to a member of the graduating class who gives evidence of superior ability, and who engages to pursue an approved course of graduate study at Trinity College, or at some other college or university approved by the Faculty. The incumbent holds the Fellowship for one year, and is known as the Mary A. Terry Fellow.

*The H. E. Russell and the Mary A. Terry Fellowships are not granted to men who propose to enter schools of medicine or law or the like.*

#### THE W. H. RUSSELL FELLOWSHIP

This fellowship, endowed by a gift of \$10,000 from William H. Russell, Esq., of Los Angeles, California, pays to the holder about \$500 annually. It is awarded biennially by the Trustees, upon recommendation of the Faculty, to a member of the graduating class who gives evidence of superior ability and of a desire to continue study after being graduated at Trinity College. The incumbent holds the Fellowship for two years.

## Prize Graduate Scholarships

At a meeting of the Corporation on June 25, 1901, it was *voted*, "That one Prize Graduate Scholarship, with remission of tuition fees, be established in each Department of the College, under the supervision of the President." At a meeting of the Corporation on April 29, 1939, it was *voted*, "That the holder of a Prize Graduate Scholarship receiving remission of tuition (\$250), be required to pay \$50 a year to cover library and other fees and \$10 for registration fee."

## Scholarships for Undergraduates

In order to receive a scholarship a student must first demonstrate his need of assistance and second, he must achieve definite grades. At pres-

ent the minimum on which applications are considered is that a student must be passing in five courses with an average of seventy-five. In order to be eligible to apply for a scholarship for his senior year, a student must at the end of his junior year be passing with an average of at least eighty in five courses. Averages higher than this are as far as possible rewarded by more generous scholarships.

### 1. Competitive Scholarships

Certain scholarships are awarded on the basis of competition:

THE HOLLAND SCHOLARSHIPS were established by Mrs. Frances J. Holland of Hartford, daughter of Bishop Brownell, the founder of the College, in memory of her husband, Thomas Holland. They are three in number, each having an annual value of \$600 with room rent if desired. They are awarded by the Faculty at Commencement to the students attaining the highest rank in the Junior, Sophomore, and Freshman classes respectively, to be held the following year.

THE GOODWIN-HOADLEY SCHOLARSHIPS were established by Daniel Goodwin and George E. Hoadley. They are four in number and entitle the holder to free tuition, the equivalent of \$250. One is awarded each autumn to the student of the highest scholastic rank from the public schools of Hartford who enters Trinity College; the nomination to these scholarships is vested in the Board of Education. The recipient may hold the scholarship throughout his entire course, if he maintains a satisfactory standing in his studies.

THE MEARS SCHOLARSHIP, having an annual value of \$450, was founded by J. Ewing Mears, M.D., LL.D., in memory of his mother, Caroline Sidney Mears. When vacant it is awarded on the basis of competition to a Freshman in need of assistance who gives indication of being a young man of promise. The incumbent may be reappointed each year while he is in college if he maintains a satisfactory standing in his studies; he is ineligible for any other scholarship.

A CONVERSE SCHOLARSHIP of \$500, from a fund established by E. C. Converse, Esq., of Greenwich, Connecticut, will be awarded to the member of the Freshman class who makes the best record in a competitive examination held at the beginning of the college year. The respective school records of the applicants will also be taken into consideration. The award is for one year only.
